

WHY WAVE 1?

IT WORKS.

A majority of our WAVE 1 owners report significant and welcome relief from Lyme and Co-Infections symptoms.

IT'S NON-INVASIVE.

The wearable WAVE 1 frequency emitter balances and restores cells, tissues, organs and systems with a safe and convenient approach.

IT'S SCIENCE-BASED.

We've known for over a century that our body cells communicate by light-wave frequencies to maintain health and that this communication can be disturbed by disease, injury or emotional trauma. WAVE 1 works to balance and restore cellular communication.

IT'S PERSONAL.

The WAVE 1 Assistant App enables customized settings and intensity to optimize benefits for the individual.

IT'S CUSTOMER FOCUSED.

Purchase includes an initial Lyme frequency support program introducing the WAVE 1 experience plus a series of touch points to enable building on best practices for lifelong wellness.

IT'S A BETTER LIFE.

WAVE 1 benefits include an enhanced sense of well-being, improved sleep, sharper mental acuity, and increased energy.

IT'S A BREAKTHROUGH.

WAVE 1 owners are early adopters of proprietary technology delivered by a wearable, lightweight and attractive device with access to online updates and upgrades.
